

Innovation Summit and Consortium Launch

Professional development featuring innovative, project-based, student centered, equity focused strategies and resources

GOALS

- Hold creative conversations about school design and re-thinking, with a network of innovative practitioners
- Share resources for strengthening the connection between student learning and their family and local community
- Experience hands-on workshops that model and inspire innovative teaching practices (i.e. project-based learning, alternative/mastery-based assessment, methods for strengthening school culture)
- View student work and listen to student voice
- Discuss problems of practice with other innovative practitioners
